SUMMARY

Software Developer with hands-on experience building production applications and integrating frontend and backend systems. Skilled in React, TypeScript, Python, FastAPI, and PostgreSQL, with additional experience in AI and computer vision using OpenCV, YOLOv8, and DeepFace. Interested in building practical software solutions and exploring emerging technologies.

EXPERIENCE

Software Development Intern Jun 2026 - Aug 2026

Talent Corner HR Services, Ghatkopar

- Developed a full-stack Learning Management System (LMS) from scratch, translating business requirements into a functional production application.
- Designed and implemented responsive frontend interfaces using React and TypeScript, alongside backend services using Python and FastAPI.
- Built REST API integrations and database functionality using PostgreSQL and Supabase, collaborating with the team through Git.

EDUCATION

Computer Engineering Aug 2024 - Current

Vivekanand Education Society's Polytechnic, Chembur

Diploma in Computer Engineering

- First Year: 85%
- Second Year: 85%

SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

Backend: Python, FastAPI, REST API Development

Databases: PostgreSQL, Supabase

AI & Computer Vision: OpenCV, YOLOv8, DeepFace

Tools & Systems: Git, GitHub, Linux

Programming Languages: C, C++, Java

PROJECTS

AI-Powered Face Detection & Recognition System

Python, OpenCV, YOLOv8, DeepFace, React, FastAPI

- Developed a face detection and recognition system using YOLOv8 and DeepFace to identify and distinguish individuals.
- Built a React frontend and FastAPI backend, integrating real-time camera-based face processing with backend services.
- Implemented face registration for new individuals and automated attendance logging for recognized faces.
